7:30 p.m., Salvation Meeting.
Tuesday: 7:30 p.m., Red Shield Auxiliary and Home League.
Thursday: 8 p.m., Praise Meeting.
Weddings, funerals and dedications on application to the local officers.

Sam says that when the wind comes from the west, Scotch people by the score crowd into his place of business to try fatten up on the fumes from the Model Bakery. He himself has taken such a fancy to it that he has drilled a hole through the wall and spends his spare time right there inhaling all possible. Sam is a great lover of doughnuts, and recently evaluated the holes of six of 'em in one gulp.

Carry your registration certificate.

LAST RITES FOR THOMAS H. FREEMAN

Funeral services for the late Thomas H. Freeman was held at St. Luke's Anglican church on Sunday afternoon, conducted by Rev. J. R. Hague. The little church was filled to overflowing with sympathizing friends and relatives. Pallbearers were Arthur Grant, George Brown, R. W. Harold Pinkney, John MacPhail, Joseph Wolstenholme and Charles Hughson.

Relatives attending included two daughters, Mrs. B. Sennier and Mrs. W. H. Hannan (of Lethbridge), and son, Arthur Freeman, of Macleod.

Frank got peeved because we omitted to mention the mammoth pine tree included in his beautiful 6x10 garden patch. The tree is 8 1/2 feet high and measures 84 inches in diameter at the base.

TO NEWCOMERS TO BLAIRMORE

The Victory Loan canvassers have about completed their interviews with all known residents of Blairmore. They find it impossible, however, to contact those who have only recently come to town. Will all those who wish to "Help Finish the Job" kindly call at the Victory Loan headquarters at the corner of Victoria street and Eighth avenue, formerly the Gillis office. BUY VICTORY BONDS.

VERY REV. M. A. HARRINGTON APPOINTED JUDGE DIOCESAN COURT

Rev. J. S. Smith, rector of St. Mary's Cathedral, Calgary, has been appointed dean of Calgary. Very Rev. M. A. Harrington, V.E., of Blairmore, has been appointed pro-synodal judge of the Diocesan Court, and Rev. J. B. O'Dea, of St. Famille, Calgary, formerly of Cowley and Bellevue, has been appointed priest consultant.

SUCCESSFUL CANDIDATES IN MUSIC EXAMINATIONS

The following is a list of successful candidates in practical examinations held recently by the Toronto Conservatory of Music in Blairmore. The names are arranged in order of merit:

PIANO
Grade VIII. — First class honors, Clayton Rose, Ruth M. Arrol.
Grade VI. — Honors, Elsie H. Arrol.
Grade III. — First class honors, Jean Thewlis; honors, Hazel Millett.
Grade II. — First class honors, Loraine Hobson; honors, Frank McEachern, Mary Bath.
Grade I. — Honors, Ronald Ostrensky.

VIOLIN
Grade III. — First class honors, Edward H. Moser.
Grade II. — Honors, Bobby Stewart, Fraser MacPherson; pass John Guza.

A number of Aussies, in training at the Macleod airport, spent the week end in The Pass.

Crossfield's Victory Loan quota was same as Blairmore's, \$41,000. Up to last Thursday they reported \$44,000 subscribed.

Blairmore-Frank's total of \$180,000 raised for the Victory Loan 1941 works out at about \$104 for every man, woman and child in the unit.

PASSBURG CAPTURES FLAG AND THIRTY-SEVEN CRESTS

Southern Alberta threatens to completely strip the Prince of Wales of his supply of crests. The other day it was announced that Foremost had captured the Prince of Wales Victory Loan flag and 24 crests; this was thought to be a record. But Secretary Smith, of the Crow's Nest Pass district, writes The Herald that he has that record beaten by a city block. The little mining camp of Passburg, boasting a total of 178 people, won the Prince of Wales flag and 37 crests. Passburg was given a quota of \$5,000 and wound up with a total of \$50,900, raising its quota ten times over. —Lethbridge Herald.

CARD OF THANKS

Mr. and Mrs. B. Sennier, Mr. and Mrs. W. H. Hannan, and Mr. and Mrs. A. Freeman, desire through The Enterprise to thank all who assisted during the illness of their late father, Mr. Thomas H. Freeman, and those who loaned cars and gave flowers for the funeral.

Particularly would they thank Dr. Stewart and Nurse Jones for their untiring attention and care; and the following for floral tributes: St. Luke's Guild, Blairmore B.E.S.L., Mr. and Mrs. Sam Rowe, Mr. Samuel Crawford, Mrs. Fraser and Mrs. Wolstenholme, Mr. and Mrs. George Brown, senior; Mr. and Mrs. G. Brown, junior; Mr. W. Fisher, Mr. and Mrs. F. M. Thompson, Mr. and Mrs. C. Minnema and girls, Mr. W. Oliver and family; Mr. and Mrs. Harold Pinkney, Mr. and Mrs. Roland Pinkney, Mr. and Mrs. G. A. Passmore, Mr. and Mrs. H. Hales, Mrs. Moore and Emma, Mr. and Mrs. Joe Atkinson, Hillcrest; Mr. and Mrs. Harry Sommers, Castlegar, B.C.; Mary and the girls, Macleod; Amy, Freda and Vera, Coleman; Mr. and Mrs. Goodwin, Bellevue; and Mr. and Mrs. A. Flint, Michel, B.C. Cards of sympathy from Mrs. Ennis, Mr. and Mrs. D. Curcio, Mrs. A. J. Pitt, Mr. and Mrs. F. DeMontfort, Mr. and Mrs. W. Johnston, Mr. and Mrs. S. Price, Mrs. Ruth Howe, and Mr. and Mrs. W. Patterson. The family, pillow.

Aberhart should turn over his unusual prosperity certificate to the war fund. The old paper should be worth something.

DEATHS ACCIDENTAL

The inquest into the deaths of Jack Peressini and Paul Zimka concluded at the Union hall on Monday, when the jury returned a verdict of "accidental death with no blame attached to anyone."

Riders included this recommendation that all fireboxes in Alberta be placed under the direct jurisdiction of the lands and mines department; that the auxiliary booster fans be placed in a more suitable position, and that each raise between the entry and counter be driven clean through before the next raise was started.

Deaths were attributed to asphyxiation resulting from lack of oxygen, caused by a sudden outburst of coal and gas, and cutting off of ventilation by the fallen coal.

Witnesses heard included Dr. Rose, Coleman; T. Morgan, mine engineer; Arthur Decoux, V. Ross and M. Micherda, miners working in vicinity of the accident; Dr. Claxton, Coleman, who performed the autopsy; Tony Lima and Pete Stewart, who worked on alternate shifts in the region; E. Womersley, J. McAndrew, R. Oakes, M. Hamilton, S. Price, R. Jamieson and E. Morgan, mines inspector.

Coroner A. Webster, of Coleman, presided. The department of lands and mines was represented by Inspector Morgan; H. Blake represented the coal company, and E. Williams the miners' union.

The following comprised the jury: R. Pinkney (foreman), W. L. Evans, A. Oliva, R. Penman, D. Robert and W. Fraser.

MINE ACCIDENT VICTIMS ARE LAID TO REST

The remains of Paul Zimka were laid to rest in St. Anne's cemetery on Sunday afternoon, following services at St. Anne's church and the graveside conducted by Very Rev. Dean M. A. Harrington. The funeral was one of the largest attended in the history of Blairmore; there being 360 persons on foot, followed by 69 cars.

The remains of his co-worker, Jack Peressini, were laid to rest in the same cemetery on Monday afternoon, following services conducted by Dean Harrington. This funeral was also largely attended.

Miners turned out in a body at both funerals.

For Increased National Efficiency
EAT MORE BREAD!

CANADIANS—whose health record is high among the nations—obtain one-quarter of their food energy from bread.

Especially if your work requires quick or sustained energy, you should eat plenty of bread with each meal. Bread is rich in carbohydrates and, made with milk—as it usually is today—bread is an important source of protein, equal to meat in muscle building and repair. Eat more of this energy-giving food and increase your efficiency for today's emergencies!

YOUR BAKER'S SKILL, scientific equipment—and the finest ingredients—give you a loaf unsurpassed in wholesomeness and delicious flavor.

Some New Products

Australian Wool Board Develops Fabrics For Fine Hosiery

The manufacture of two new woolen products will be undertaken this year by the Australian Wool Board. These are fine wool stockings and uncut mezzettes for the upholstery of furniture and motorcars. Samples of woolen stockings hanging from the sheer weaver to reveal weight for sports and country wear have been received from Great Britain. Leading hosiery manufacturers were given an opportunity of inspecting this range, and as a result one firm proposes to manufacture a limited quantity of these stockings.

For some time now woolen furnishing fabrics including both tweeds and mezzettes, have been used with great success in England and America, and their suitability is unquestioned. In addition arrangements have been made to obtain samples of attractive printed wool furnishing fabrics which have just been completed in London.

Woolen upholstery, floor coverings, and novelties decorated the ideal Australian home which was part of the exhibit arranged at Sydney Royal Show.

Pajamas and nightgowns, morning frocks, day frocks, afternoon and cocktail frocks, dinner gowns, dance gowns, and coats of all descriptions indicated the advantage of wool for general wear.

We won't let Britain down!

VICTORY LOAN 1941

Devastation in Germany

Nazi Camouflage Buildings To Prevent Damage From R.A.F. Bombs
The Germans have adopted elaborate methods of camouflage in an endeavor to check the devastating Royal Air Force raids on Hamburg, Hanover, and Bremen.

A traveler who visited these three cities recently told a representative of the London Daily Telegraph on the German frontier that railway stations at Hanover and Hamburg and other equally extensive targets were completely hidden under a canopy of timber rising on a gentle ramp to form an artificial mound.

This was covered with grass and rows of shrubs: the effect from the air being that of a road running through fields over the crest of a hill.

The Germans also attempted to disguise landmarks by which they believe R.A.F. pilots check their course near Hamburg. The shape of Alster lake has been altered by covering parts of it with boards supported on piles. Another lake near Hamburg has been camouflaged by the same method.

After eight or nine oil storage tanks had been blown up near Hanover, and production stopped for several weeks, the Nazis covered the remaining tanks by erecting dummy houses on top.

Local residents told the informant millions of marks had been spent in camouflaging landmarks. Describing devastation in the three cities, he said Hanover suffered great damage. Whole streets in the industrial districts have been "blown completely flat."

One of the most important targets which has been hit several times is the Continental rubber works, which makes rubber boots for the German air force and a kind of rubber casing which the Germans are now using to cover parts of submarines. As a result of one R.A.F. attack the factory had to be closed down for 10 days.

During another recent raid a Hanover tram depot received a direct hit and was burned out, 145 trams and buses being destroyed. Transport in the city now is chaotic.

At Hamburg the traveller was impressed by the tremendous devastation in the port area. Piles of debris and gutted buildings could be seen everywhere, and much damage had been done to port installations.

In the free port of Bremen the traveller saw the skeleton of grain and coffee warehouses. Goods now are being stored in empty vaults to distribute the risk.

The informant was an eye-witness to all this damage but he also received reports of the bombing of various other places. One was that the Kiel mine dockyard at Wilhelmshaven now was useless.

In Kiel it was estimated 15,000 persons have been bombed out of houses in the dock area. From these two towns and Emden crowded trains leave daily carrying people to the Harz mountains and Turingia.

Plenty Of Practice

Coach: "You're doing well, son. The way you hit that line and the way you dodge and tackle and worm through them is marvelous."
Football Player: "It comes easy to me. I used to go with my mother to the bargain sales."

HOPE FOR CANADA'S GROWING NAVY

Workmen in one of the Royal Canadian Navy's east coast dockyards are shown applying the largest hemp rope ever made in Canada. It was produced in a factory in the Maritimes.

Anti-Submarine Device

New Invention Would Drive Enemy U-Boats From The Seas

Charles F. Reiterberg, a leading American inventor, predicted German submarines would be driven from the seas by development of a device to catch them on the surface at night. The engineering genius who gave the automobile industry the self starter, expressed a belief that the anti-submarine device would be completed and in operation "within a reasonable time."

"We have been working with the navy for six years," he said, referring to General Motors research division which he heads. "It's not going to be too hard to beat the subs."

Reiterberg also said the problem of interception of light bombers "is being licked now" in Britain by detection devices "now in production."

Reiterberg told a group of returned American war correspondents that one of the big advantages the United States navy has over other navies is in the engine being installed in new submarines.

"With that engine, our subs can go 17 to 20 knots and more on the surface—fast enough to keep up with the fleet," he said. "The subs other countries have go along at 10 or 11."

NEW SLEEVELESS DRESS

By Anne Adams

"Summer sleevelessness is the thing," declares Fashion, it's an ideal for its cool comfort and its adaptability to the new rounded shoulder silhouette. Anne Adams has used the sleeveless theme most effectively in Pattern 4651, with extended shoulders that just cover the tops of your arms to give perfect comfort without looking too exposed. This dainty square-necked dress is wonderfully simple to make, as you can see by the dressmaking diagram. The front is all one piece, with slashes high above the slim waistline to hold up the bodice softly. The back of the dress is in easy princess style—there's a perky back-laced belt, too. You might use lace edging and add bows for gaiety.

Pattern 4651 is available in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 16 takes 3 1/2 yards 35 inch fabric and 2 1/2 yards lace edging.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

Morning
Serve with milk or a cereal. Put in the children's school lunch.

Noon
So tasty with cheese or any "spread".

or Night
Delicious with desserts or beverages.

Serve

Christie's Graham Wafers

against her cheeks. Her aching hands threatened to loose their hold any moment.

Then, horrified, she saw that only a few hundred yards ahead, the mass dropped off again, precipitately! Probably, her imagination pictured horribly, into a hot, rocky canyon where at this breakneck speed, even a sure-footed thoroughbred like this on would crash to certain death.

As in some horrible nightmare, she watched the mass's rim draw closer—closer! Twice she tried to reach the reins flying wildly under the mare's foam-flecked head. And twice nearly slipped from the saddle.

"Don't try it!" faintly from behind, she heard Dale's shouted command. "Just hang on."

For seconds that might better have been measured by eternities, they pounded on, pumper and pursued. Until the rim of the canyon seemed only another step, a chasm, yawning right at her feet.

Devona shut her eyes, steeled herself for the shattering fall, felt her horse rear, plunge to one side, gather speed as if for a mighty leap. Faint, her breath forced back into her throat by the force of the wind, she clung more through reflex action than conscious direction of her aching muscles.

Then, suddenly, the horse was slowing its terrific speed. Rocking in the big Western saddle, she felt herself slipping dangerously, tried to regain her balance. But this time, too-tense muscles refused to obey. Another moment and she'd have fallen under those sharp, murderous hooves. The same moment that she felt a strong arm around her, a quick sharp pain in her side as she was jerked bodily out of the saddle.

She looked up into Dale's white face, tried to speak. Instead, she slipped off into a black cloud of unconsciousness.

When she opened her eyes again she saw that the tenderness in his voice was matched by that in his eyes. She stared into their blue depths, hypnotized by the emotion she saw unmasking there, not daring to breathe, to break the spell of—

"I love you, Devona. Love you now, holding her so close she felt his heart beating a ton-ton against her own breast. "I don't want to lose you—ever."

For an instant, their eyes met, clung hungrily. Then Devona heard her own voice answering. "And I love you, too, Dale."

With that he swept her close, his lips crushing hers in a kiss that grew quickly from a tender caress to a stormy passionate embrace. His arms, as if of their own accord, slipped around his neck with answering pressure.

"That's pretty—wonderful," Dale murmured a moment later, his voice tender deeper with this new emotion. "I'd never dreamed it could be—like this."

Devona ran the tip of her finger, slowly, caressingly, down the bridge of his nose, straight nose. "I've been dreaming about it always—ever since I saw you. I knew it had to be—love."

He kissed her again. "You sweet heart. I guess women do know more about love. I'd begun to think there was no such thing, really."

"And—now?"

"Now I know it's—grinned, hugged her close, "its what makes the world go round! I've been wondering why the old place seemed different lately. Now I know it's because of a little black-haired girl I found sitting on a trunk down at the San Pedro wharf. Funny that one small package like this could make so much difference."

Smiling, Devona teased him. "And wasn't it only last night you said love only happened in story-books?"

"Did I?" He kissed the tip of her nose. "What a sap. Or else this is just a fairy tale and pretty soon somebody will come along and break the spell."

Quickly, Devona shook her head. "Oh, no."

With sudden seriousness he searched her face, almost anxiously. "Devona, don't let anything, any one ever break this spell, will you?"

"Of course not, darling."

"You do love me, you're sure?"

"Terribly, wonderfully sure, Dale."

"And nothing will ever change your mind?"

She smiled, drew his face down close to hers. "Of course not, darling." And sealed that with her kiss.

But even as she tried to reassure his strange anxiety, a premonition stalked into her own mind, trailing tatters of old fears. Something so perfect as this—so precious, so flawless. They had to keep it lovely as was this moment between them forever. Nothing, nothing must ever break the spell of their happiness. It only she could be sure.

The wind whipped tears into her eyes blindingly, sent strands of the mare's flying mane to smack smartly

Smiling Summer Mornings start with this treat!

MADE IN CANADA - OF CANADIAN WHEAT

No wonder Mary's smile matches the summer morning—she is eating a luscious breakfast of two Nabisco Shredded Wheat and milk, topped with fresh strawberries! And she is getting 100% whole wheat, with its valuable wheat germ, in a form that is easily digested and quickly convertible into energy for work or play.

At your food store, say "Nabisco Shredded Wheat."

THE CANADIAN SHREDDED WHEAT COMPANY, LTD., Niagara Falls, Can.

DAUGHTER OF DESTINY

Eleanor Atterbury Colton

CHAPTER XII

Devona would have fled immediately to the safety of her own room. But, as Vana closed the door behind her again, Dale caught her hand.

"It may be an uncivilized hour to be up hunting burglars, but it's a swell hour for a ride out on the desert to watch a sunrise," he whispered. "Gams!"

Perfectly aware that Vana probably stood just inside that closed door waiting to be obeyed, Devona hesitated.

"Please. You've no idea how lovely it is!" The blue eyes pleaded. And only when she nodded her acceptance did he release her, stand grinning as she raced down the hall, closed her own door with a smart little click.

Half an hour later, Dale was waiting for her at the stables. The eastern sky was just beginning to blush a lovely pink and except for the occasional clomp of a horse's hoof in the stable, the world seemed wrapped in a blanket of deep silence.

Devona felt almost as if she should whisper her greeting in the eerie half-light of morning.

"Did I keep you waiting?" Dale swung down off the corral fence where he'd been perched, shook his head. "Not long. And—my grin teased again—"it was worth it."

"Maybe we'd better leave a note," she suggested.

"I did." Dale held out his hand. "Up you go."

Dawn broke just as they rode out of the canyon, came onto a level mesa. The unbelievably blue sky broke into a brilliant prism spreading fingers of green and soft purple and orange across the sky like giant searchlights.

For a moment they just watched the lovely miracle, feasting their eyes, breathing deep of the crisp, dry air. Even their sleek, well-groomed mounts stood quietly for a moment. And Devona had the strange sensation of their being alone in some infinite, remote world—just she and Dale together. If only it could always be like this.

Then the rim of the sun pushed

over the horizon and it was morning.

"Glorious, wasn't it?" she murmured.

Dale didn't answer and when she looked to see why, she found his eyes on her, grave, almost tender. And for a fleeting second she felt that he, too, must have shared her emotion of the moment before. Because something had drawn them closer. She felt it even as her nervous mount jerked her away from him, down the trail at a smart gallop.

When Dale caught up with her, the gravity was gone, replaced by that precious, crinkly-eyed smile she'd come to adore.

"You ride like a born circus performer," he said as they cantered along. "Does lots of it?"

She nodded. "Yes. Some for pleasure. A lot for necessity. You see, many of the camps Dad had to live in were miles from transportation. It was go with him by horse or mule back, or stay behind in some God-forsaken little village by myself. So, of course, I usually went along."

"Pretty dangerous, wasn't it?"

"Sometimes. But it was fun, too. And, of course, Dad never let me go if the danger was too great."

"I think I'd have liked that Dad of yours," Dale said suddenly.

She smiled, nodded. "I know you would." And Dad, she added silently, would have liked this tall, square-shouldered young man, too.

Then, as the trail narrowed, curved up onto a rocky plateau, Devona rode ahead. Responding to the free rein, her horse plunged faster. Even as the dry air whipped her face, Devona felt easily into the rhythm of the horse's step, glided in this head-long rush across the open desert.

Suddenly, as she took a little gully at a flying gallop, the feet-footed mare shied violently, reared, snorting, until she almost unseated her rider. In the same instant, Devona saw why. A huge make-slipping across the hot, sandy trail, coiling rapidly now, in angry, hissing menace to both horse and rider. The deadly rattlesnake!

Cold with horror, Devona felt the frightened mare jerk, the reins out of her hands, take the bit in her teeth as she whirled. Devona clung to the saddle as the horse dashed headlong down a steep canyon, took a dry creek bed in a single, terrifying leap, scrambled up to the hard flat mesa beyond.

Behind her she heard the pounding hooves of Dale's horse in pursuit. Her own horse, terrified and challenged now by the steady thunder of those hoof-beats behind, raced on faster. Surely she'd exhaust herself soon, Devona prayed, and cling frantically to the saddle horn.

The wind whipped tears into her eyes blindingly, sent strands of the mare's flying mane to smack smartly

Model Of House-Fly

Shows Exactly What This Menace To Man Looks Like

What does a house-fly look like, say, to a germ? Mr. T. B. Kurata of the Royal Ontario Museum has worked this out. With painstaking dexterity he has produced a model of the house-fly on a scale 187,200 times the original volume. The model shows the spines and hairs which cover the body like porcupine quills, the large globular eyes made up of thousands of small eyes; and the sucking mouth which is extended to show its parts. Another similar model displays the fly's brain, heart and stomach. One small part of a fly's foot has been enlarged 200,700,000 times to show small bacteria clinging to the claws. A culture dish shows the growth of bacteria introduced by the house-fly and a dead mouse is displayed as the nursery of the young flies or maggots. To properly impress the Museum visitor with the unpleasant contact of flies and man a giant house-fly is seen secreting saliva and faeces upon the being of a piece of cake. Altogether, the common fly is exposed as an unwholesome creature to have about the house.—St. Thomas Times-Journal.

Wall Was Repaired

Bismarck's Fate Closed Breach Made When The Hood Went Down

We believe most American felt their country and their continued less safe when the great British battle cruiser, the Hood went down. They felt as if a breach had been made in a protective wall.

We believe the same majority of Americans felt vastly more safe when the enormous Bismarck went down under British gun and torpedo-fire. They felt as if the wall had been repaired.

These men are divorced from our world, the world of reality. The rest of us will lift our hats to our English protectors for a dazzling sea epic, a thrilling demonstration of pluck and skill in the deepest moment of adversity.—New York Post.

A Remarkable Story

A circular noscope from a German bomb came through the window of a London apartment, spinning so fast that it circled the four walls of the room before it stopped. In one corner it crossed the glass doors of a built-in china closet without breaking them.

Accidents On Farm

According to insurance companies farming is a dangerous occupation. Outside of accidents occurring in the home the herd hall causes the highest percentage of fatal accidents on the farm.

The final test of eating technique is a chicken wing. If you can get any meat off without picking it up, you're an expert.

There is about a pound of salt in every gallon of sea water.

Two Kinds Of Fees

And Specialist Gave Millionaire His Choice Of Payment

One of New York's foremost physicians reveals the story of the call he received, some years ago, to go to Durham, N.C., and treat Doris Duke's father. He spent a day and a half at the Duke estate, and then prescribed a change of diet. At the end of the month, he submitted his bill—\$14,000. Duke became enraged at this, called his own doctor, and said: "That New York specialist wants me to pay him \$14,000 just for changing my bread to toast. It's outrageous. Speak to him." The doctor phoned the eminent specialist, at the dispensary where he was treating a group of patients without fee. "I have two kinds of fees," the specialist explained. "The first is \$14,000; the second is nothing." Mr. Duke can have his choice, of which fee he wants to pay me." Mr. Duke sent his cheque for \$14,000.

GEMS OF THOUGHT

LIBERTY

The liberty of a people consists in being governed by law which they have made themselves, under whatever form it be of government.—Covley.

The history of liberty is a history of limitations of governmental power, not the increase of it.—Woodrow Wilson.

The world has never had a good definition of the word liberty.—Abraham Lincoln.

Truth crushed to earth springs spontaneously upward, and whispers to the breeze man's inalienable birthright: Liberty.—Mary Baker Eddy.

Personal liberty is the paramount essential to human dignity and human happiness.—Bulwer-Lytton.

The only liberty I mean, is a liberty connected with order; that not only exists along with order and virtue, but which cannot exist at all without them.—Edmund Burke.

Town Named After Dog

And Residents Of Dingo, Australia, Do Not Like It

Residents of Dingo, Australia, are tired of living in a town named after a dog. Dingo is the name of a breed of Australian dog and when mail arrives addressed to John Jones, Dingo, it is too much like being called a name, they say. People of Caradoc, named after a hump fish, and those of Green Pigeon don't seem to resent their town names so much.

The Lost Squad

"When I was a boy," said the sergeant to a squad of recruits, "I had some wooden soldiers, which I lost. My mother said: 'Oh, you'll soon find them.' And believe me, you topped snail-on-headed gang, that day has come."

What a pity it is that a person can't dispose of his experience for as much as it cost him.

When a man is too proud to beg and too honest to steal he hunts up a grocer who is willing to trust him.

The Duke Of Connaught

Has Been A British Field Marshal For 39 Years

If the Duke of Connaught lives to celebrate three more birthdays he will have broken a British army record—that of having been a field marshal for a longer period than the Duke of Cambridge. The former Governor-General of Canada recently celebrated his 91st birthday. He is a wonderful old man, whose only evidence of increasing years is deafness. When he was born in Buckingham Palace, so long ago, he was described by the Duke of Wellington, who later became his godfather, as "a very nice boy." The Iron Duke would not have ventured to predict that his godson would live to have his name in the army list for 72 years. He was gazetted as a lieutenant in the Royal Scots Greys in June, 1868, transferred in November to the Royal Artillery, and finally to the Rifle Brigade in August, 1869. He has been attached to the brigade ever since. He reached the highest rank in the army, that of field marshal, in June, 1902. He is thus approaching the record of the Duke of Cambridge, who was a field marshal for 42 years.

Steer Clear Of Award

Officers Do Not Want Order Of The Bowler Hat

Somewhere in England officers at headquarters of a 1st Division infantry brigade from western Canada are steering clear of the "Order of the Bowler Hat." As usual, an order as in existence, the O.B.H. is "awarded for outstanding overights, blunders or such other causes" as the brigadier, a former University of Saskatchewan professor, may designate.

It was instituted by the brigadier early this year after a series of what he called "stupid mistakes." So far there have been only two awards, both to Edmonton lieutenants—the first for "misleading a night convoy" and the second "for failing to deliver a rum issue."

The order is conspicuously placed on the mantel in the officers' mess at brigade headquarters. The bowler hat is there, too, for all to see and remember.

Phrases Often Used

Phrases which have passed into our common speech and which have added to the expressiveness of our language are found in the Bible:

The apple of his eye.
The salt of the earth.
Joy cometh in the morning.
The laborer is worthy of his hire.
Faithful unto death.

The widow's mite.
A pearl of great price.
Clear as crystal.
To entertain angels unwares.

India has investigated the possibilities of utilizing vegetable oils as lubricants in internal combustion engines.

A JOY TO BEHOLD

It is a downright pity that circumstances make it impossible for every Canadian publisher and editor to have a look at the thousands of clippings which are pouring into the offices of the Canadian Publishers War Finance Publicity Committee. Here we have a joyous expression of free institutions in marked contrast to the controlled press in many parts of Europe. The real pleasure derived from an examination of the editorial content of some 1,450 publications comes from the realization that in this Victory Loan campaign the press of Canada is expressing the enthusiasm, the emotion and the determination of citizens at large rather than the dictates of a group in power at Ottawa. It is not even the suggested editorial, the cartoon or the feature article, emanating from the publishers' committee office, which dominates the array of clippings being assembled. What stands out are the bold headlines of the aggressive news treatment of the local campaigns, the home-spun editorial content, buoyant eagerness or the newspapermen in performing a public service.—Publishers' War Finance Publicity Committee.

THOUSANDS FROM U. S.
IN CANADIAN ARMY

Between 6,000 and 7,000 men from the United States are serving in the Canadian Army, Colonel the Hon. J. L. Ralston, minister of national defence, told the graduating class of Colgate University at Hamilton, N. Y., this week when he received from that institution the honorary degree of Doctor of Laws. In addition 600 of the staff of pilots or instructors or attached to the Royal Canadian Air Force are from the U.S., as well as about 1,500 pupils trained or training in the air training plan, the minister stated.

Dealing with Canada's part in the war, Col. Ralston emphasized that the greatest enemy on this side of the Atlantic is the idea that there is plenty of time, an enemy that received a staggering blow in the recent evacuation of Crete. "There is no doubt we have slept too long," he continued. "Already since the war began tens of millions of men and women have lost their freedom. We who took democracy for granted see a whole continent back to the night of the Dark Ages when the whim of the dictator or the monarch was sufficient to deprive a citizen of his liberty, his property, his head or all three. We realize that it is only when the people themselves can take and keep government in their own hands that the way of life we prize can be enjoyed."

Mrs. Kate Parker, of Vancouver, is visiting friends in the Lundbreck district.

The Victory Loan is now within fifty millions of the \$600,000,000 objective.

Dorevan's wife awoke in the small hours to hear him stealthily moving things about in the kitchen. "What might he be looking for, darling?" she asked.

"Nothing," said Dorevan, "just nothing." "Oh," said his wife, helpfully. "Then you'll find it in the bottle where the whiskey used to be."

LETHBRIDGE AND CRANBROOK
C. N. PASS GOLF TITLERS

The three-day tournament of the Crow's Nest Pass Golf Association concluded on Monday evening, when A. Barnsley, of Lethbridge, became the 1941 champion by defeating R. Napper, of Lethbridge, 2 and 1 in the final.

Results were as follows:
Senior men's qualifying round, 14 entries—Low gross, G. Passmore and W. Kerr; low net, W. Kerr; runner up, G. Passmore.

Low gross in men's qualifying round was made by A. Barnsley, 76; runner up, B. Wilson, 77. Low net, Dr. W. G. Fergie; runner up, Terry Hughes.

Low gross, ladies, Mrs. Lawes; runner up, Mrs. Fergie. Low net, Mrs. H. Blake; runners up, Mrs. F. M. Thompson and Mrs. Claxton.

In mixed foursomes, 9 holes, low gross was made by Mrs. W. H. Turner and Beecher Wilson; runners up, Mrs. Fergie and Dr. Fergie. Low net, Mrs. Passmore and Donald Rees.

Men's two-ball foursome, low gross, T. McCready and J. Hughes; low net, T. McCready and J. Hughes.

Semi-final ladies' championship—Mrs. Laws versus Mrs. Finley; Mrs. Fergie versus Mrs. Pinkney. Winner, Mrs. Fergie.

Semi-finals men's championship—R. Napper versus J. Hughes; B. Wilson versus A. Barnsley. Winner, A. Barnsley.

Semi-finals senior men's championship—L. L. Morgan versus H. C. McBurney; G. A. Passmore versus T. McCready, ex. Winner, G. A. Passmore.

Semi-finals ladies' first flight—Mrs. H. Blake versus Mrs. J. R. Smith; Mrs. T. McCready versus Mrs. Thompson, Winner, Mrs. J. R. Smith.

Semi-finals men's first flight—Donald Rees versus T. Evans; Dr. Fergie versus J. Logan, Winner, T. Evans.

Semi-finals senior men's first flight—G. Penn versus J. B. Wilson; H. Blake versus E. Jones. Winner, H. Blake to play Sunday.

Semi-final ladies' second flight—Miss Soulet versus Mrs. Passmore; Mrs. E. Basso versus Mrs. J. A. Brust. Winner, Mrs. Basso.

Semi-finals men's second flight—E. Basso versus H. Pinkney; T. McCready versus I. Hayson, Winner, T. McCready, Jr.

Final men's third flight—W. Wilson versus J. McPhee. Winner, W. Wilson.

Men's 18-hole medal play, 13 entries—Low gross and low net, J. Kellock, Coleman.

At the conclusion of the tournament, refreshments were served by the ladies of the Blairmore club, and prizes were distributed to the successful by Mr. H. Blake, the president. Members from the outside clubs expressed their thanks for the splendid time they had had, and hoped all present would continue to attend the tournament in future.

The annual meeting was held on Sunday evening in the Club house, with representatives from Lethbridge, Fernie, Cranbrook and Kimberley present. Mr. B. Banks, of Kimberley, was elected president for 1941. It was decided to hold the next tournament in Kimberley, the dates to be set next May.

Mr. and Mrs. Harry Garcia, of Everett, Washington, were visitors over the week and with relatives and friends in Hillcrest and other towns in the district. Mrs. Garcia will be remembered as formerly Miss Margaret Foster, of Hillcrest.

Canada's first infantry tank has been turned out, and armor plate of a high quality is now being made for production of two types of tank in Canada. The tank programme calls for the production of 800 infantry tanks and about 1,000 cruiser tanks.

The financial policy of the Canadian government is to pay for the war, as far as is possible, "as it goes." Money is to be raised as far as is practicable by taxing and borrowing from the public and from domestic financial institutions other than banks.

MORE DETAILED QUESTIONS
AS THE CENSUS STARTS

Postponed from June 2nd to June 11th to give Victory Loan representatives a chance to make their calls, Canada's eighth census taking commenced on Wednesday of last week.

More questions will be asked than ever before in census history, yet no question has been inserted merely because the information would be interesting, the Dominion bureau of statistics point out, but only because it has a bearing on basic social or economic condition.

Every employee of the census is under oath and penalty against revealing any individual item. The bureau of statistics itself is forbidden to issue any statement that would lay bare any personal matter.

It is expected that from two to four weeks will suffice in normal localities in Canada for the completion of the census field work. After the third or fourth month the bureau of statistics expects to give out the first results for many cities, towns and counties, and a final count by provinces for the entire Dominion within about five months.

HOME DEFENCE

Since the outbreak of war Canada has taken steps greatly to strengthen the defence of her coasts and is co-operating with the United States in joint defence measures. Both Canadian coasts are guarded by anti-submarine devices, naval and air patrols operating from coastal bases, coastal and anti-aircraft guns and large concentrations of troops. Over one hundred air fields have been built under the air training plan, strategic air bases have been built in coastal areas, and Canada will spend \$30,000,000 this year on additional land and sea air bases of strategic importance, including a string of air fields designed to give military planes access to Alaska. Troops guard vital points throughout the country. In many areas local authorities have organized Civilian Defence and A.R.P. units.

HESS "SINGS" SADLY
OF BEER HALL DAYS

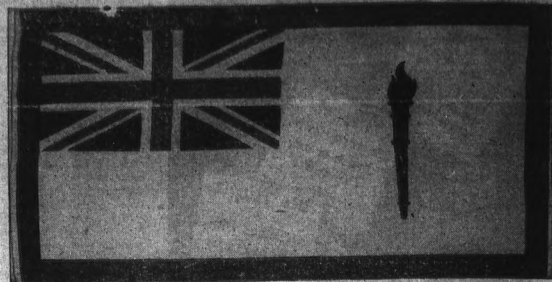

Under the heading "Hess Sings to Goering," the Ottawa Journal published the following contribution: "You tak' the low road. And I'll tak' the sky road, And I'll be in Scotland afore ye. But me and my Fuehrer will never meet again. On the bonnie, bonnie bench in the beer hall."

The estimated cost of the air training plan is now \$824,000,000, of which amount Canada's share will be \$331,000,000. Canada provides 50 per cent of the students, and of this number it was recently estimated that between 7 and 10 per cent are Americans.

Steel production in Canada has increased tremendously in Canada. The 1935-38 average was 1,300,000 tons a year. It is now estimated that production is at the rate of 2,550,000 tons a year. Production of alloys is ten or twelve times the pre-war level.

A ninety-year-old resident of the Lundbreck district claims that his greatest enjoyment in life of late has been in listening to the press commentator from Winnipeg over the air on Sunday mornings, in which frequent reference is made to The Enterprise.

A. E. Ottewill, registrar for the University of Alberta, announced on June 13th that in future the Senate will consider the awarding of honorary degrees in December or January, instead of just prior to convocation, as was customary in the past. Mr. Ottewill said the change was made to prevent a repetition of the situation resulting from the Senate's refusal by a one-vote majority to confer an honorary degree on Premier Abernethy, of Alberta, after a Senate committee had recommended the degree be conferred.

THE PLEDGE FLAG, 1941

(Special to The Enterprise)

OTTAWA, June 20.—As Canada's Victory Loan 1941 races down the home stretch toward its objective, reports received at press time reveal that a total of seven provinces have subscribed their quotas and are pushing on to large over-subscriptions. The two provinces still behind are Ontario and Nova Scotia, but both are expected to take up the slack in the next two days and come in to a handsome finish when the loan officially ends at midnight Saturday.

Rich and poor, Canadian born and naturalized citizens of the Dominion

have given concrete proof of the nation's unanimity of purpose by the way they have responded to this loan. Although the figures will be considerably increased by the close of the campaign, it is noteworthy that up to Wednesday night 646,163 individual subscribers have been registered. Among large subscriptions reported Thursday was \$65,000 from the air crews, ground crews and the administration staffs of the Royal Canadian Air Forces. The R.C.A.F. conducted its own campaign in Ottawa.

Although the Torch of Victory arrived at Sydney yesterday, it will not

be flown to England unless the loan itself is heavily oversubscribed. It is hoped that the accumulated response from the public will make it possible to present the Torch to Prime Minister Churchill at his residence at 10 Downing Street, London, on Dominion Day.

The loan cannot be considered a success unless it is heavily oversubscribed. Confidence in the patriotic and unselfish spirit of the Canadian people, however, leaves no doubt that success will be overwhelming.—John R. Herron, for Publicity Committee.

COWLEY HAPPENINGS

The school track meet held here on Friday was a huge success. The weather was ideal and a large crowd gathered to witness the contests, which began at 10 a.m., ending at 7 p.m. with rushing to get all entries into this only too short time. Following were winners: Cowley, 2 rooms, 106; Lundbreck, 2 rooms, 62; Todd Creek 36, Maycroft 17, North Fork 17, Burnis 14, Tanner 9, Olin Creek 4, Gads Hill 3, Lee 2, Willow Valley 1. Chapel Rock 0, Passburg 0. Five teams entered the softball tournament, namely, Todd Creek-Gads Hill, Tanner-Olin Creek, Lee-Willow Valley-Chapel Rock, Maycroft-North Fork and Cowley-Lundbreck. The latter team won. In athletics, Com's Porter, Cowley, 15 points; Irene Lemire, North Fork, 15 points; Betty Staunton, Cowley, 15 points; Maurice and Floris Lemire, Cowley, 13 points each.

The rectory has recently received a new covering of shingles. Miss Nellie McWilliam was a visitor to Lethbridge on Saturday, where she attended a teachers' meeting.

Earl O'Sullivan will be going to Macleod shortly, to be employed in clerical war essential duties.

On Friday night next, the 27th, a barn dance in aid of the Red Cross will be held by Sandy Porter at the old Jim Edwards' place north of Lundbreck.

Word has been received from Lethbridge of the birth of a son to Mr. and Mrs. Mike Evans (nee Bridget Burn) on Friday, June 13th. Congratulations.

Mrs. William Cochrane was a visitor to Granum the early part of the week.

We had another good rain over the week end, when about half an inch of moisture fell. Field crops and vegetable gardens are looking quite promising, and some of our flower gardens are gorgeous to look at.

On Friday afternoon last considerable damage was done by hail a few miles south and west of here. Glen Bowerman reports poultry killed by the stones and damage to roofs of farm buildings on his place.

A Doukhobor colony house at the west end of town is being torn down, the material to be used in constructing buildings on farm lands. This building was occupied many years ago by A. H. Knight's general store and H. Goyar. It was built about 1902, and was one of the oldest buildings here.

We are informed by Messrs. Cole and Kerr that their new swimming pool at the Turtle Mountain Playgrounds will be in operation on July 1st, also the dance pavilion.

Our car has not been stolen this year. Tough world!

New strawberries were selling at 25 cents a pint at Creston twenty years ago.

A number of Oddfellows from Pincher Creek visited the Bellevue lodge on Monday night.

Canadian soldiers stationed in Newfoundland will soon be able to send letters home postage free, a privilege enjoyed by troops serving in England.

Canadian Pacific Builds First Canadian Tank

It was a proud day for the Canadian Pacific Railway's Angus Shops at Montreal when D. C. Coleman, vice-president, announced to a gathering of Government officials, company officers, workers and newspaper men that he had great pleasure in delivering the first Canadian-built tank to the Canadian Army. "The machine," he said, "is the child of sweat and tears. It will be followed by hundreds and thousands of others to help the Empire to its victory." The tank was gratefully accepted

by the Hon. C. D. Howe, Minister of Munitions and Supply, who praised Mr. Coleman, H. B. Bowen, chief of motive power and rolling stock, and other Canadian Pacific men for the effort they had put into building this splendid war machine. He, in turn, gave the tank and all others to come off the Angus assembly line to the Hon. J. L. Ralston, Minister of National Defence, who thanked the Canadian Pacific workers for the fine job they had accomplished. "You men have put

your whole heart into this job," he said. He also mentioned that 300 of the thousands of tanks being made at the Angus Shops were being produced for the British Purchasing Commission. The pictures above show Mr. Coleman officially delivering the first tank to the Department of Munitions and Supply and, inset, Corp. Colin Strick, of the Royal Tank Regiment, a veteran of Dunkirk, complimenting an Angus worker on the construction of the tank.

WORDS OF INSPIRATION

Thought A Day For A People At War

"Purim brings a message to the whole civilized world to remember that the modern Haman, Hitler, will also be soon brought to justice that his reign of terror will be removed."—Rabbi Nahum Schulman, speaking at Purim Services at the Shalom Hashomayim Synagogue at Windsor.

Coleman Elks will sponsor a carnival on July 19 and 21.

A residence for A. M. Barnett is being erected near Main street in West Blaimore.

Alex. Easton, of Coleman, is a patient in the Col. Belcher hospital at Calgary. In his absence, Bill Jenkins is acting steward at the B. E. S. I. club.

Albert Crowder, of the No. 2 Wireless School, R.C.A.F., spent a few days in town during the week, en route to holiday at Crawford Bay on Kootenay Lakes.

While the Crescent Shows were in Cranbrook recently, an aged man who beaten up in a hotel by a man connected with the shows, who escaped, but was captured outside the city.

A former resident of Coleman, James Derbyshire, passed away at Creston on June 28, aged 61. He is survived by his wife and son Clifton, six brothers and one sister, Jack and George Derbyshire, of Coleman, and brothers.

CATARRH SPOILS SLEEP

Insert a little Babbler's White Fish in each nostril night and morning. This will reduce swollen membranes, keep passages wide open, encourage healthy sleep or double your money back. 25c and 50c.

The British Commonwealth air training plan is operating 62 schools from coast to coast. Canada provides over 1,000 aircraft have been produced in Canada. About 40 planes a week are now being turned out.

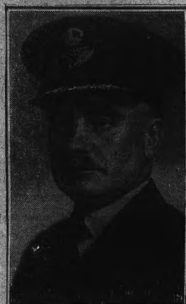

Those who know wine best—the French—choose Bright's

The French in Canada, long known for their knowledge of fine wine, choose Bright's, the most popular wine in Canada. It's made from special wine-grapes, grown expressly for Bright's. Capacity in excess of 4,000,000 gallons make possible the proper ageing that yields fuller, richer flavour and more fragrant bouquet. You'll enjoy it, too!

CONCORD OR CATAWBA sold in GALLON JARS and in bottles

This advertisement is not inserted by the Alberta Liquor Control Board or by the Government of the Province of Alberta.

AIR COMMODORE HAROLD EDWARDS, Air Member for Personnel on Canada's Air Council. —Photo by Karsh, Ottawa.

Departmental examinations for Grade XII commence today and will continue till June 30. As in recent years, there will be no written tests for Grades X and XI, students being promoted on recommendation. Examinations for Grade IX will begin on Tuesday next, June 24, and will continue until Monday, June 30.

The engagement is announced of Edith Marie, of Vancouver, daughter of Mr. and Mrs. George Lomas, of Lethbridge, to Mr. James Matheson Garrett, son of Mr. John Garrett and the late Mrs. Garrett, of Lethbridge and formerly of Blaimore, the marriage to take place in Calgary on July 1st.

William Ross, of Crows' Nest, is visiting his brother Jack at Truro, Nova Scotia.

A car belonging to Editor King, of the Clarendon Local Press, was stolen last week. It was a 1935 Chrysler, color black and dark blue, carrying license number 49-854.

CALGARY EXHIBITION AND STAMPEDE, JULY 7 to 12

A most interesting and thrilling presentation of Western sports, coupled with a splendid display of Alberta's resources, will take place at the 56th annual Calgary Exhibition and Stampede, to be held July 7 to 12th. The events of the week include a representative display of agricultural implements and high quality livestock; industrial arts, photographic and domestic exhibits and dog show, while the livestock review and parade of livestock exhibits will be staged on Friday morning of that week. This feature annually attracts large crowds.

In 1940 the Calgary Exhibition and Stampede was enjoyed by a quarter of a million patrons, and judging from inquiries from the United States, it is expected that a larger number than ever will visit the Stampede this year, and at the same time pay a visit to Canada's famous mountain playgrounds, thus having a worthwhile visit and take advantage of the favorable exchange rates.

Turning horse races each of the six days, and the afternoon events leading to the North American and Canadian championships, as well as a gorgeous stage revue entitled "Music on Wings" are daily attractions that seem to bring the people back year after year. Championships are awarded for bucking horse riding, calf roping, steer decorating, wild steer and wild horse riding, wild cow milking, Indian races and the famous chuck wagon races each day. The Indian Camp on the Exhibition ground is a source of interest to visitors, and the outstanding feature of the Calgary Stampede is Canada's largest and most spectacular fireworks display on Monday and Saturday nights. Included in Saturday night's programme is a display of gorgeously dressed Indians.

The Stampede opens on the Monday morning with a magnificent street parade, and over 50,000 people pack the route of the parade each year to see and hear the many bands and gorgeous floats that add to the color of the opening day.

Livestock entries are heavier this year in all sections. Shorthorns and Herefords and a good number of Angus. There will be cattle from Ontario to give the Westerners competition. In dairy breeds there will be entries from herds that have national fame in sections for Holsteins, Ayrshires and Jerseys, and as usual there is a good list of entries of light horses and particularly good entries from the breeders of heavy horses. Sheep and hog entries are about as usual.

Platform attractions of outstanding merit have been secured and will round out evening shows. The midway this year will be "all Canadian" and in this section will be found many new, interesting and attractive thrills.

President T. A. Hornibrook and General Manager Chas. Yule feel that with information already to hand everything points to a very successful summer show again this year.

More than 80,000 Canadian soldiers, sailors and airmen are now overseas.

Canadians in the R. C. A. F. and R. A. F. have so far accounted for about 200 enemy planes.

A residence for Idris Evans is being erected on Dearborn street next west of the Roland Pinkney home.

The Royal Canadian Air Force is over ten times as strong as it was at the outbreak of war, and about 35,000 more men will be added to the air force during the present year.

They say it happened in Scotland "What are ye lookin' so glum aboot, Bob?"

"Ach, Ah've been let doon badly!" "Goodness me. Ah thoct ye'd be full of pep. Ye were only married!" Mrs. Tannen, the widow woman, twirled a lock.

"That's wha' Ah'm so glum aboot. She told me that she had six kids in the cemetery; but she didn't tell me they were only over there playin'!"

Lindbergh would like to be president of the United States.

Mrs. G. Finch (formerly Fern Palmer) has resigned from the Clarholm teaching staff.

It's only now that some folks are beginning to realize that it's only the Ford that can climb trees.

The tenth pennant was attached to Blairmore's flagpole on Tuesday morning. There are others to come.

The residence of Mike Terfleck, at the corner of Stuart street and Seventh avenue, has recently been treated to a coat of paint.

Mrs. M. A. Page, who has resided in Hillcrest and Bellevue for several years, left by Monday night's train for Vancouver, where she will take up residence.

The bodies of Mr. and Mrs. Dan Wilson, who were drowned in Park Lake on Friday last, have been recovered. The double funeral took place at Lethbridge on Tuesday afternoon.

MEALTIME ABOARD CORVETTE

Members of the crew aboard a Canadian corvette in active service crowd around the table at mealtime in the fore-cabin. The salty tang of the sea and the hard, open-air work of seaman's life make for hearty appetites. Many corvettes are now being built in Canadian shipyards for the Canadian and British navies. Each costs approximately half a million dollars.

"So you complain of finding and your country or complain about the soup?"

"Yes, sir."

"To serve my country sir—not to 'Did you join the army to serve eat it!'"

To Every Mother Wife and Sweetheart .. Beware of the Vanishing Atlantic!

INSTALLMENTS

You can buy your Victory Bonds by installments—10 per cent down; the rest on easy terms over 6 months. Pledge your credit and buy all the Victory Bonds you can on the installment plan. When you have paid for them, your dollars will be earning a good interest return. Your canvasser, trust company, bank or Victory Loan headquarters will explain and take your order.

HELP TO KEEP THE "FRONT LINE" AWAY FROM YOUR DOORSTEP

Urge Your Menfolk to Buy Victory Bonds NOW

You can no longer depend upon the Atlantic Ocean for protection. Any day between breakfast time and noon, a bombing plane can fly from Greenland to our own Maritimes and Quebec—a mere matter of 5 hours; to Winnipeg in less than 9 hours; to Vancouver in 10½ hours. From German-occupied France, bomb-laden planes can carry destruction to Toronto, Niagara, Ottawa and Montreal in less than 10 hours. Night and day, in the British Isles and on the sea, in and out of uniform, men defend your home from attack as surely as though they stood and fought at your own doorstep. Will you help to supply them with tools to carry on the fight—your fight? Will you help to make certain that there shall never be an "occupied" Canada?

Your Government needs some of your savings to buy more ships, planes and tanks—munitions of war that will hurry the return of our men to their homes, insure our way of life. Lend your money by buying Victory Bonds NOW!

The money you invest in Victory Bonds will come back to you with interest. Lend your money. We must win this war. Lend to preserve the things that money cannot buy. Urge your menfolk to protect your home by investing in Victory Bonds now. All that you hold dear is threatened.

HOW TO BUY

Give your order to the canvasser who calls on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Headquarters. Bonds may be bought in denominations of \$50, \$100, \$500, \$1000 and larger. Canvasser, bank, trust company or your local Victory Loan Headquarters will be glad to give you every assistance in making out your order form.

VICTORY LOAN 1941

THE PASS EIGHTEEN YEARS AGO

(The Blaimore Enterprise, 1923)

June 7.—On Friday last, June 1st, the little nine-year-old son of Mr. and Mrs. M. Joyce, Harold Evans, met death by drowning in the swollen waters of Lyon Creek.

Flood waters in this district did damage estimated at close on half a million dollars.

June 14.—A. F. Farley, who recently severed connection with the Blaimore Wholesale Co., has opened up under the firm name of Farley Wholesale.

At a meeting of the town council this week Mayor McLeod and the council voted themselves free light and water.

E. J. Pozzi had required the contract to erect a garage on the site of the old Mar On premises. Garage will be operated by L. Dutil.

In the Lundbreck district the rainfall was six inches in nine days.

Mrs. W. G. Askey died at Fincher Creek on June 7th, aged 58.

W. H. Chappell was chairman of a meeting held this week to arrange for July 2nd and 3rd demonstration in Blaimore. W. Bird was secretary. Committee: D. G. Mackenzie, president; J. Charbonnier, hon. president; P. M. Christopher, Mayor McLeod and G. A. Vissac, hon. vice-presidents.

Mrs. Fleming received word last week end of the death of her mother, Mrs. Egan, in Nova Scotia.

June 21.—Isaac Smith Stevenson, blacksmith, passed away Saturday at the age of 33. He was ill but two weeks.

The marriage took place at Red Deer last week of Miss LeClerc, of Raven, to Mr. George Gasowski, of Saunders, formerly of Blaimore.

The following have been elected officers of Blaimore Local Union: Frank Weir, president; William Patterson, financial secretary; Evan Morgan, recording secretary.

Mr. and Mrs. P. Haggarty, of Hillcrest, were being congratulated upon a new arrival to their family.

A small quantity of liquor was found in the Knight residence by the R.C.M.P., and a fine of \$250 and costs was imposed.

Potatoes were blossoming in the Creston district as early as June 10.

In the present fiscal year Canada's purchases in the United States will approximate \$950,000,000—nearly twice as much as in the year 1939. Nearly half this amount will purchase war supplies.

The Red Cross tea and auction sale held at Lundbreck on Wednesday afternoon was not as well attended as was anticipated. However, the dance at night and the supper helped to swell the funds.

Aaron Card, of Cardston, delivered the academic valedictorian speech at the 38th annual commencement exercises of Alberta College, Edmonton, yesterday, when near 200 pupils received diplomas.

The following Lethbridgeites participated in the golf tournament here over the week end: Judge J. A. Jackson, D. R. Yates, Mrs. C. A. Long, H. G. Long, J. Haines, J. K. Ringland, T. Evans, R. Napper and Norman Smith.

Mrs. Louise Gehlin, former resident of Frank, passed away in Blaimore on Thursday following a rather lengthy illness. She was about fifty years of age. The funeral service will be held in St. Anne's church on Sunday afternoon at 2 o'clock.

HILLCREST HAPPENINGS

Inspector A. W. Reeves, supervisor of the Hillcrest school, announced Monday that three pupils of the school won the poster and essay competitions sponsored recently by the provincial publicity committee in connection with Victory Loan 1941 in co-operation with the department of education. Harold Stefano, Grade 9, presented the best essay, entitled "Why Canadians should Buy Victory Loan Bonds." His 200-word composition was intelligently written and was greatly praised by Mr. Ralph Draper, the principal. Wing Chan won the poster contest for Grade 9. His poster was beautifully arranged with a colored emblem of Canada at the top and the Union Jack on both sides, with the picture of a pilot and planes swooping in the centre. The wording below the pilot is "Lend New and Hasten Their Return: Buy Victory Bonds." Miss Eva Sharretta is Wing's art teacher. Joe Chan won the poster contest for the high school. His poster was artistically arranged with colored emblems of the nine provinces forming the border. In the centre was drawn Winston Churchill in a large maple leaf. The wording below the picture: "Let Us Fight: Buy Victory Bonds. Canada Must Borrow \$600,000,000." Joe has taken his art course from Mr. William Webster for the past two years, and this year Miss Alice Greener is his teacher. Much of the credit for his fine work is due these teachers. The competition was divided between the senior and junior high schools for the Fincher Creek division, including Hillcrest and Bellevue.

Miss Ardith Webster was entertained by a number of friends to a wicker roast on Tuesday. The supper included buns, cakes, potato chips and lemonade. After supper all engaged in a song fest.

Mrs. E. Harding, of London, England, is visiting her sister, Mrs. M. Hamahuk. She came to Canada to visit her sisters and brothers and at the outbreak of war was unable to return.

Mrs. G. Forteous, of Twin Butte, is visiting at the home of her daughter, Mrs. Rees.

The children of the United church held their annual picnic at the McLean flat on Saturday, when about fifty of them had a happy time.

A large number of friends gathered for a pretty shower in honor of Mrs. T. Evans, of Coleman, in the Catholic hall on Tuesday evening, when the recent bride received a wide assortment of useful gifts.

Mrs. A. Portko has moved to a fruit farm near Vancouver.

Pupils assembled in the school hall on Friday in honor of the King's birthday, and under Mr. W. G. Moffatt's direction sang patriotic songs.

John Ray, student at the Provincial Institute of Technology and Art, Calgary, is home after completing his course in the machine shop.

Ferguson Grant has enlisted for active service.

Albert Moorhouse has returned from a few weeks' visit to East Coulee, near Drumheller.

Mrs. Robert Duthie passed away at Fernie on June 10th at the ripe age of 85. She is survived by her husband, one son and one daughter, Edward Duthie and Mrs. Alice Black, and two grandchildren.

Bear in mind the Strawberry Tea and sale of home cooking, to be held in the auditorium of the United church on Wednesday afternoon of next week, from 3 to 6. Bring your friends.

All is set for the big St. Anne's carnival, to be staged at the Blaimore arena on Saturday and Monday nights, June 21 and 22, from 7 to 12 each night. See bills for further particulars.

A meeting of the executive of the Crows' Nest Pass Musical Festival was held the early part of the week at which various matters in connection with the recent festival were dealt with.

A. A. Sparks was up from his Fincher Creek ranch yesterday.

The marriage took place yesterday of Miss Mary Nicelcor to Mr. Steve Huchala.

Most Alberta points have over-subscribed their Victory Loan quotas. Calgary, however, is still slightly in the red.

The B.C. government will spend \$10,790 on the Fernie district highway, which will no doubt include east to Crows' Nest.

If accommodation for committees handling the 1941 Victory Loan had to be paid for in full the expense to the Dominion would have been very heavy. Through the generosity of many public spirited persons and organizations, however, most of the premises used have been granted free of charge, while furniture, stationery, decorations, posters, cartoons, typewriters, etc. have been kindly provided free of cost. The local committee desires to thank Mr. C. Sartoris for the free use of an office building at the corner of Victoria street and Eighth avenue. Thanks are also extended to Miss Willows, West Canadian Collieries Ltd., Mrs. Rachel Green, Mrs. W. H. Chappell, F. M. Thompson Co., Blaimore Pharmacy, Blaimore School Arts Class, Joe Lisovsky, Evan Gushul, Blaimore Community Sports Association and others for valued assistance.

WARNING AGAINST

FOREST FIRES

Fire Ranger Harry Boulton has issued a warning to all frequenters of the forest areas of the Crows' Nest Pass to be very careful with fire.

The hot summer days are approaching and timber will become tinder dry. Carelessness with matches, cigarettes and camp fires are the most common causes of forest fires, and now that hundreds are travelling into the forests to fish in their favorite streams, the fire hazard is increased. Be careful with fire. Extinguish camp fires thoroughly before leaving. Leave nothing to chance. Conserve Canada's timber.

Mrs. Enore Montagnani, of Hillcrest, announces the engagement of her sister, Miss Eva Anne Sharretta, of Hillcrest, to Mr. Frank Pierschala, of Bellevue, the marriage to take place in Bellevue on June 25th.

The marriage of Miss Ellen Elizabeth Hughes, ladies' golf champion, to Mr. Edward L. (Squib) Coughlan, both of Fernie, took place in Blaimore on Saturday, June 7th, Rev. Dean M. A. Harrington officiating.

And now since so much rotten and unnecessary literature is being sent out to newspapers, etc., from federal and provincial government departments in the hope of free publication, factories have quit turning out waste-paper baskets.

This advertisement is not inserted by the Alberta Liquor Control Board, or by the Government of the Province of Alberta.

Once again—that "friendly" pact with the Hun. This time Turkey will be the victim of the trickery.

Part of the foothills rolled over Clare Snyder's car last week, leaving it in a badly battered condition. Some of the occupants sustained slight injuries.

The total Victory Loan subscriptions from C.P.R. employees on the Lethbridge division, which includes this district, has mounted to \$38,400. All returns are not yet in.

Mrs. E. Gillett, of Calgary, has been visiting her mother, Mrs. Wm. Ross, at Crows' Nest.

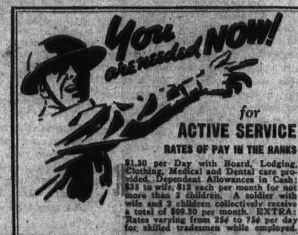

British Columbia's attorney-general occasionally cruises the province to inspect police detachments. We're not so fortunate in Alberta, for we haven't such a qualified head.

Robert Dennis Macleod, an employee of the government beer warehouse at Lethbridge, was found guilty of conversion of funds and sentenced to one year's imprisonment.

MEN ARE URGENTLY NEEDED FOR CANADA'S ACTIVE ARMY

Make no mistake about it . . . This is your call to duty . . . Canada's Freedom is Threatened . . . You are needed now

Your King and country need you! The call to duty is ringing clear and men who love Canada and all this great Dominion stands for, will need no further urging: It's time for ACTION; for all-out effort! Our future, our homes, our faith, our freedom, are at stake! There's no room for talkers or skulkers! YOUR hour, the hour of the FIGHTING MAN, is here!

Canada's great mobile army, equipped with all the finest weapons of modern, mechanized warfare—tanks, armoured vehicles and guns of every calibre—stands ready to your hand. Join it NOW! Be a vital cog in this fast-moving, hard-hitting FIGHTING machine. Join up in answer to Canada's call! Join up and smash the Hun!

Canada's Active Army needs men for Artillery, Engineers, Signals, Armoured Cars, Tanks, Infantry, Transport & Supply, Medical, Ordnance and other branches of the service. The Army is prepared to teach many trades and to train you to handle Canada's weapons of war efficiently.

Go to your nearest District Recruiting Office. Find out about these units; how they work, what they do. See just where you'll fit in; see where any particular skill you possess can best be utilized. Then join up for ACTION!

A Great Undertaking

It is difficult to conceive of any federal organization that is doing, or is capable of doing, more for the permanent welfare of Western Canada than the Prairie Farm Rehabilitation Administration.

The word "permanent" is used, because, unlike many administrative organizations that have been set up from time to time, it is designed to reach down to the roots of the agricultural problems of the west and its efforts are intended to effect a permanent cure for the defects, which time has shown, have impeded the development and prosperity of the major industry of the west, the industry upon whose success depends the welfare of the country as a whole. That problem, in a nutshell, is accessibility of water as and when it is required to promote growth and maturity.

To some degree and in some areas of this vast west, the problem has already been solved by the P.F.R.A. and as a result of its activities, thousands of families who a few years ago were unable to wrest a living from the soil, are now able to provide the necessities of life for themselves, and thousands more are on the high road to achievement of the same objective—self maintenance.

The results already achieved are so self-evident as to warrant further expansion of the efforts that have been made in this direction to date. Future results will only be limited by the amount of money made available for further extension of this excellent work, and because of the permanency in the improvement in agricultural prosperity, which these activities create, there should not only be no curtailment in worthwhile expenditures, but, if it is at all financially possible, more money should be made available for this valuable undertaking.

Program Is Unique

Reference here is made more specifically to the appropriation made available for small individual and small community projects such as dug-out for the individual farmer or small groups of farmers, small dams for the provision of water for farm gardens, for stock watering and for minor irrigation projects, for the extension of the community pasture plan, for the transfer of families from marginal or sub-marginal areas which cannot be improved and made productive, for the encouragement of moisture conserving methods of cultivation and for expansion of tree planting programs to provide shelter for livestock, to curb erosion, to trap and conserve moisture, to protect gardens and to convert houses into homes.

Of all organizations on the North American continent devoted to the doctrine and practice of moisture conservation, P.F.R.A. in Western Canada is unique in its development, application and expansion of the small individual and community project. The United States is the habitat of the spectacular scheme which harnesses the productive potentiality of great rivers and makes it available to the use of mankind in terms of thousands of kilowatts of electrical power and in terms of thousands of square miles of cultivable area.

It is true that in Western Canada also, P.F.R.A. has developed a limited number of large irrigation projects and has now mapped out for the future but, to date, its major effort has been devoted to a multiplicity of small, inexpensive projects, and it should not be overlooked that while these miniature undertakings are not of sufficient magnitude to draw large headlines in the daily newspapers, their cumulative effect brings equally beneficial results to large numbers of people and to large areas in the aggregate.

Sound Economy

It is not intended to convey the impression that money required for the war effort should be diverted to extension of P.F.R.A. activities. On the contrary. The war is, and must be, the first and the greatest consideration. Unless this war is won the work of the P.F.R.A. and the money expended upon it goes for naught in its beneficial effects upon the welfare of the people of this country. It would only be of advantage to the Nazi conqueror. Too much stress cannot be laid upon this certitude. If, however, some curtailment in other domestic activities could be effected without serious impairment of vital necessities to enable the prosecution of the small project to be continued on a more extended scale, it would pay long term dividends as well as bring almost immediate results.

The large scale project, valuable though it may be, involving expenditure of millions of dollars, can very well be deferred until after victory has crowned the efforts of the armed forces and the civilian population. Indeed, projects of this nature will be required to stem the threat of widespread unemployment after the guns have ceased to bark, and to have plans of this nature in prospect for post-war construction is sound war-time economy.

On the other hand, it is equally sound economy to push the small project to the limit of national ability to finance, so long as it does not encroach war needs as measured in manpower, materials or financial resources.

A scarcity of cauliflowers is forecast by Canadian greenhouse men, due to the cutting off of seed from Holland and Denmark.

Contrary to common belief, the United States flag has no particular star representing each state.

A Valuable Contribution

Without Farmer No Country In World Would Be Prosperous

I am a farmer and the provider for all mankind. Upon me every human being constantly depends. A world is built upon my toil, my products and my honesty. Because of my industry Canada, my country, is one of the leading countries of the world and one with the brightest outlook for the future. Her prosperity is maintained by me. My reaper brings food for to-day; my plow holds promise for to-morrow. In war I am absolute; in peace I am indispensable—my country's surest defence and constant reliance.

I am the very soul of Canada, the hope of a race, the balance wheel of civilization. When I prosper men are happy; when I fail, all the world suffers.

In London, the Minister of Home Security has disclosed that unexploded missiles, mostly collected by souvenir hunters, have killed 12 persons and injured six.

At key points all over Britain ambulance and casualty evacuation trains stand ready for constant use. End for end, the trains would extend for seven miles.

Dangerous Souvenirs

The Holy City

Jerusalem Is Now A Trembling Metropolis

Refugees streaming into Jerusalem have made the ancient Holy City a teeming metropolis, where all Allied uniforms can be seen, and there is a babel of tongues, races and colors.

Not since the days of King Solomon has the city been such an important Middle Eastern centre. Successive German penetrations in the Mediterranean have brought royalty, cabinet ministers, diplomats, professors and students to Jerusalem.

For the first time since the crusades, Christians of all sects are united under one flag and in a common cause. But unlike the crusades of 800 years ago, the brotherhood of arms now includes Moslems, Jews and Hindus.

Religious-minded persons see in this the beginning of the fulfillment of Isaiah's ancient prophecy in which the Lord's house was set on the mountain tops and all nations flowed to it.

They believe there also will be fulfillment of that part of the prophecy, which says: "They will beat swords to plowshares, spears to pruning hooks, nation shall not lift sword against nation, and they will not learn war any more."

The mood of Jerusalem is evidenced by the fact there is a shortage of Bibles in the European languages.

The Holy Sepulchre is the focal point of daily life, where appointments are made and kept, where carefully groomed society women mix with shabby Bengalese, where dramatic meetings take place between brothers and sisters who have not suspected one another's presence in Palestine.

Most refugees are energetically engaged in sight-seeing. One tourist manager, misquoting Moliere, classified them as "tourists despite themselves."

Jerusalem is so overcrowded that monasteries, convents, churches, synagogues and even the Hebrew university on Mount Scopus are converting all space available into sleeping quarters for refugees regardless of their faith.

During the day the population appears to subside chiefly on ice cream, watermelon, cold native tamarine drinks or bilious-looking lemonade purchased from street-hawkers shouting their wares in all languages.

The evenings are spent meandering through the old city, taking in its rare beauty as the muskies' voices mingle with church bells, shawl bells and the evening prayers in synagogues.

The Helpful Husband

Is Found More Often On Farm Than In City

The St. Catharines Standard says: Girls who want a husband who will help with the dishes should marry a farm boy. As a rule city boys stay away from helping their wives with housework. That was the conclusion drawn from a survey of city and country wives made by the Association of University Women. The results of which were announced recently. The same probably applies to the Canadian domestic circle. The survey shows 57 per cent of rural husbands help their wives with housework, while but 40 per cent of the city husbands included in the survey were domestic helpmates.

Quite True

The teacher was trying to impress on the children how important had been the discovery of the law of gravitation. "Sir Isaac Newton was sitting on the ground, looking at a tree. An apple fell on his head, and from that he discovered gravitation. Just think, children," she added, "that wonderful!"

The inevitable small boy replied: "Yes'm, an' if he had been sittin' in school lookin' at his books, he wouldn't never have discovered nothin'!"

Proud Of Their Deeds

Let Britain sing! Let her people sing, says Basil Dean, in British Songwriter, not so much to keep up their spirits—which are high indeed—but to give voice to the national pride in the deeds of our young men and women on sea, on land, in the air, in factory and in trench.

One heavy bomber requires approximately 450,000 rivets.

Nervous Restless Girls!
Granny! Restless? Can't sleep? Tired easily? Anxious by female functional disorders and monthly distress? Then take Little E. Pinkham's Vegetable Compound. Famous for over 60 years in helping such run-down, weak, nervous conditions. Made especially for women. WILL WORK! TRYING!

is HER faith greater than YOURS?

She hasn't got \$50 - yet she buys a

VICTORY BOND

This woman has complete faith in Canada... in the rightness of our cause... and the greatness of our future, once Victory is won. And she wanted so much to "do her bit" in the Victory Loan. But she didn't have \$50!

Then a Loan Adviser explained how she could buy a Bond by instalments. Today she is the proud and happy applicant for a \$50 Victory Bond.

Here is how she will pay for it: \$5.00 on application; \$7.50 on July 15th; \$7.50 on August 15th; \$10.00 on September 15th; \$10.00 on October 15th; and \$10.36 on November 15th.

You, too, can buy a bond this easier way. And remember, Victory Bonds are as good as cash. Your security is all of Canada. Your return—the satisfaction of having struck a blow for freedom from Nazi tyranny.

WILL CONTINUE STRUGGLE UNTIL VICTORY IS WON

London.—British, her Dominions and her Allies adopted a resolution affirming their determination to continue "the struggle against German or Italian oppression until victory is won" and pledging mutual assistance to each other "in this struggle to the utmost of their respective capacities."

This action was taken in the first formal convocation of representatives of the British Empire and of all the governments with which it is allied. The resolution declared: "There can be no settled peace and prosperity so long as free peoples are coerced by violence into submission to domination by Germany or her associates or live under the threat of such coercion."

"The only true basis of an enduring peace is willing co-operation of the free peoples in a world in which, relieved of the menace of aggression, all may enjoy economic and social security."

"It is in their (the Allies') intention to work together and with other free peoples both in war and peace to this end."

The high commissioners of Canada, Australia, New Zealand and South Africa represented the four dominions.

Prime Minister Churchill, addressing the meeting, declared "nothing is more certain" than that every "atom of the (Hitler's) infected and corroding dangers will be sponged and purged and, if need be, blasted from the surface of the earth."

The prime minister thanked the Allied leaders on the King's behalf for "the tremendous moral blow" they had "struck for the common cause."

"It is here on this island fortress that he will have to reckon in the end," Mr. Churchill declared of Hitler. "We shall strive to resist by land and sea. We shall be on his track wherever he goes."

He said Hitler would find "no peace, no rest, no halting place, no parking."

Embodying on a solemn note, he told the gathering, sprinkled with the uniforms of the Allied armies and navies, that "if driven to desperate hazards, he will attempt an invasion of the British Isles, as well as may. We should not flinch from the supreme trial. With the help of God, of whom we must all feel daily conscious, we shall continue steadfast in faith and duty till our task is done."

The resolution of the conference was adopted by the governments of the United Kingdom, Canada, Australia, New Zealand, South Africa, Belgium, Czechoslovakia, Greece, Luxembourg, the Netherlands, Norway, Poland and Yugoslavia, and by representatives of the Free French movement.

Battle Of Atlantic

Stronger Convoy Protection Is Improving The Situation

Ottawa.—The battle of the North Atlantic has been going "rather better" for Britain lately, in the opinion of Rt. Hon. Ronald Cross, new British high commissioner to Australia, who is in Canada on his appointment.

The former minister of economic warfare and more recent minister of shipping cited "better air support and stronger convoy protection" as reasons for the apparent turn in the fortunes of war on the northern sea. He emphasized, though, he was not in close touch with the immediate situation.

Receives Victoria Cross

London.—Second Lieut. Premindra Singh Bhagat of the corps of Indian Engineers became the first Indian soldier in this war to be awarded the Victoria Cross. Bhagat detected and supervised clearing of 15 minefields, in the Anglo-Egyptian Sudan, working under "high pressure from dawn to dusk daily."

French Tanker Torpedoed

Vichy, France.—The Vichy admiralty said the French tanker *Arctis* had been torpedoed in the Mediterranean by a British submarine and seven members of the crew killed. The communiqué said the tanker was seriously damaged, but did not sink.

Relieved Of Duties

Moscow.—R. I. Vannikov, commander for armaments in the government, has been relieved of his duties "for failure to cope with the duties of a commissar," and Dmitri Ustinov has been appointed in his place.

To Retain Jobs

Legislation Designed To Protect Men Who Enlist For Active Service

Ottawa.—Legislation is being prepared to ensure so far as possible that men who give up positions to enlist for active service, will be sure of their jobs when they come back. Labor Minister McLarty told the House of Commons.

The legislation will be introduced when parliament resumes after the summer adjournment.

Mr. McLarty said it was felt those who go overseas should have as much security as possible in their peace-time occupations.

The bill provides that employers will, so far as possible, reinstate men who leave them for active service, in positions no less favorable than they might have attained had they not enlisted.

The legislation will be modeled generally after a British measure designed to attain the same objective, Mr. McLarty said.

Angus Macdonald (C.C.F., Vancouver East) asked if the government would make the principle of the proposed legislation effective in the meantime.

The minister said the bill had not yet received final consideration of council, but he was confident it would not be restricted in its application to those who enlist after the measure becomes law.

The minister said a draft of the bill had been submitted to the labor advisory committee and other representative labor bodies, and to the general committee on demobilization and rehabilitation of the pensions department.

Fast Planes

Send More Than A Thousand Tomahawk Fighters To Britain

Buffalo, N.Y.—The Curtis-Wright company announced it had more than 1,000 fast Tomahawk fighters to Britain and demonstrated a faster, spike-nosed pursuit plane whose performance and armament were kept secret.

The Bell Aircraft corporation which makes the P-38 Aircoats said it had sent 11 of these cannon-carrying fighters to Britain but that none had yet seen action. Curtis expects production capacity of 60 pursuit planes a day and Bell, six a day.

The new Curtis P-46, more pointed and streamlined than the P-40 Tomahawk, was flown before returned war correspondents who went through the Curtis and Bell plants.

Correspondents noted that most of the planes being finished in the two plants here the Royal Air Force insignia or had special British fittings.

To Speed Up Work

Britain Puts All Building Industries Under War Order

London.—Moving to speed up vital war work, the government placed building and civil engineering industries under an essential works order.

This means that workers' right to quit and employers' right to fire in these industries will be under government control, as in the munitions industries.

"It is well known," said Labor Minister Ernest Bevin, "that full productivity of the war effort is dependent to a large extent on expediting certain buildings and civil engineering works in this country. We must speed up effort on air fields and on war office and admiralty construction. There is no time to argue with anybody."

The order guarantees a six-day work week.

Diplomatic Service

New Open To Deserving Candidates Without Private Income

London.—Foreign Secretary Eden told the House of Commons the diplomatic service will be opened to deserving candidates without sources of private income.

The change, it was said, will open high posts to men of all classifications in diplomatic and consular branches. In the past, a monopoly on choice diplomatic posts has been held by public school men of private means.

Mr. Eden said women too will be eligible for promotion to the most responsible positions under the new regulations making "financial reforms."

Increase Tank Production

Ottawa.—Production of tanks at the Angus shops at Montreal is progressing favorably, Munitions Minister Howe said in the House of Commons. He said the objective of assembly line production at the rate of three a day will be achieved shortly.

Will Allow Air Terminals

But Eire Still Refuses Use Of Airports Or Seaports

London.—Irish sources said Prime Minister Eamon de Valera of Eire had refused to permit the United States to use either seaports or airports in Eire as a stepping stone for transportation of war supplies to Britain.

The prime minister was said to feel that use of any part of Eire for such purposes would open the country to German air attacks as a legitimate military target. It was understood that he is amenable to establishment of a terminus in Eire for trans-Atlantic passenger service.

The United States was said reliably to be speeding arrangements for a direct air link with Britain because of fear that German moves in the western Mediterranean and Atlantic soon might sever the present connection via the Azores and Lisbon.

VICTORY TORCH IS DEDICATED AT OTTAWA RITES

Ottawa.—The Torch of Victory, symbol of Canadian support of the Mother Country, was dedicated on Parliament Hill, and Prime Minister Mackenzie King linked with his words of appreciation of the symbol an appeal for young Canadians to enlist in the fighting forces.

The torch, which will be handed to Prime Minister Winston Churchill when it has crossed the Atlantic after being received at ceremonies in major Canadian cities, stood in the centre of the main walk to the Centre Block.

Standing on a flag-draped platform, the prime minister could see to his left the National War Memorial erected in honor of Canada's dead in the first Great War. He referred to the monument in his address, saying that the figures depicting liberty and freedom placed on it should challenge Canadians to see they did their part in the present-day struggle against Germany.

It was essential that all assist in seeing that Germany is not victorious in the war, and by the provision of men and money victory could be gained.

"I wish to express the gratitude of the government to the armed forces," said Mr. King. "They have earned the gratitude of Canada and all free countries."

"I call on young men to enlist in this great cause. I make this appeal to young men who will live here after the war is ended."

Money as well as men was needed, and he urged support of Victory Loan, 1941.

Pointing towards the national monument and referring to the figures of liberty and freedom, Mr. King asked: "When the new memorial is erected on each one of us say, 'I have done my part.'"

When Mr. King finished his address, the torch was carried to the platform where the governor-general, prime minister and cabinet ministers stood.

The scroll which accompanies the torch was signed first by the governor-general, and then by Mr. King, Conservative House Leader Hanson and Mayor Lewis.

LEARNING THE ROSES

The fundamentals of baseball are explained to the Princess Royal by Lieutenant-General A. G. McNeughton, commander-in-chief of the Canadian overseas forces. The princess, in her uniform as chief controller of the Auxiliary Territorial service, visited Canadian headquarters and inspected one of the signalling units.

Soldiers' Railway Fare

Two-Thirds Reduction For Service

Ottawa.—Minister of National Defence Ralston told a cheering house that the government had arranged for a two-thirds reduction in railway fares to soldiers on annual or embarkation leave.

The men formerly paid one, and one-quarter cents per mile for return tickets. Now, the Dominion government and the railways will pay two-thirds of this amount leaving members of the armed forces with one-third the cost.

Ralston added that 32 per cent of the total recruits needed for the Canadian army had been enlisted since the opening of the current campaign. The total number enlisted thus far is 10,844 men.

Regain Liberty

Canadian Women Interned In France Are Being Released

Ottawa.—All Canadian women interned in France are being released, said a statement issued by the external affairs department. A recent list showed they numbered 59.

Representations had been made by the Canadian government through the U.S. government, stating that German women had not been interned in Canada merely on the ground of their nationality.

Civil Defence Army

London.—Britain has a civil defence army 4,000,000 strong, Herbert Morrison, home secretary, revealed in parliament. The minister added that the ranks of fire-bomb fighters were increased recently by 2,500,000 men and women.

CANADA SOUNDS TRUMPET CALL

Taking Heavy Toll

Many Canadians In Britain Injured In Motorcycle Crashes

Ottawa.—Motorcycle accidents are taking a heavy toll of Canadian troops in Britain, according to a Canuck invalided out of the army after months overseas.

Many of the men who came back with him, he said, were forced out of uniform by injuries they suffered while dashing around on those vehicles. Main reasons for their crashes, he said, are the narrow English roads and the blackouts which make night manoeuvres difficult.

Sets Air Record

Bomber Flies From Britain To Canada In 13½ Hours

Montreal.—A bombing plane set a new east-west trans-Atlantic record of 13½ hours from England to Canada, it was revealed by officials of Alfero, a division of the British ministry of aircraft production.

The plane, bringing trans-Atlantic pilots back to Canada to ferry other bombers across to England, landed at an eastern airport 13½ hours after taking off from an undisclosed spot in England.

HON. R. B. BENNETT IS ELEVATED TO THE PEERAGE

London.—A viscountcy is bestowed on Rt. Hon. R. B. Bennett in the King's birthday honours.

The honor to the former Canadian prime minister is the highest in a comparatively short civilian list, which includes also the appointment of Hon. Vincent Massey, Canadian high commissioner in the United Kingdom, to the privy council.

Lord Bennett will take a seat in the house of lords, thus returning to political life from which he retired in 1938 when he came to England "to do something helpful for the Empire and Canada."

His elevation to the peerage had been predicted since he first arrived in England and became secretary of Juniper Hill estate, Mickleham, Surrey.

Though he has not been in the limelight to the same degree as when he was leader of the Canadian Conservative party, he frequently has been seen at political functions as a speaker or chairman and has been doing an unobtrusive but important job at the ministry of aircraft production.

In the house of lords he will be reunited with another Canadian peer and ardent Empire supporter, Lord Beaverbrook, a business colleague in his early years in Canada and until recently his boss at the ministry of aircraft.

The viscountcy is of historic interest. Several public men prominent in the service of Canada have received baronies at various times but Lord Bennett is the first former prime minister whose name a peerage has been conferred.

Mr. Massey is the second Canadian named to the privy council in recent months. The other is Arthur Purvis, chairman of the North American Supply Council. The distinction entitles the bearer to the prefix "right honorable."

Created a viscount, Rt. Hon. R. B. Bennett returns to parliamentary life with a seat in the house of lords where he is expected to take an active part in debates and political leaders believe may possibly assume the role of an Empire spokesman because of his wide knowledge of Canadian and Empire Affairs.

Some authorities indicated other honors had been offered Lord Bennett but that he had accepted the peerage because he felt he could be of most service in the upper chamber at this critical period of the war.

Nearing his 71st birthday, he appears to be in better health than when he left Canadian politics three years ago under a doctor's orders.

Smiling broadly, he received a Canadian Press correspondent at his busy desk in the ministry of aircraft production where a flood of congratulatory telephone calls poured in on him as word of the honor moved around. London even before the official announcement.

Attired in a wing collar, black coat and striped trousers similar to those he wore in the Canadian House of Commons, he indicated he looked forward with keen anticipation to speaking again in a parliamentary assembly. He talked of his peacetime reminiscences on Canadian political life, but mentioned only sparingly his future plans.

WAITING FOR THE NEXT NAZI MOVE TOWARDS EAST

London.—Speculation runs riot over the reported Nazi troop concentrations from the Baltic to the Black Sea near Russian borders, but it seems improbable that a German-Soviet clash is impending.

Obviously German troops are being redistributed in the Balkans and probably in Poland and elsewhere along the eastern frontiers of the German reich. It is also altogether probable that these shifts correspond to Berlin's plans for the next major land move against Britain in the east, whether it be via North Africa, Cyprus, Syria or Turkey.

Whatever may be the fact as to Moscow-Berlin relations at the moment, however, it does not seem probable that Hitler contemplates more than force-politics pressure on Russia at this stage.

His logical strategy would be to bring from her further economic aid such as food and oil, or possibly to immobilize her while he puts the heat on Turkey to "collaborate" with the Axis against Britain.

Turkish-Russian relations have been very close. There have been formal Moscow assurances of aid to Turkey if attacked, as well as Russian gestures of opposition to German penetration of Bulgaria and Yugoslavia.

Except under extreme pressure, Moscow could hardly countenance Nazi stranding of the Danubian to reach Iraq or Syria. That would bar her Black Sea outlet. Yet it is the shortest land route for a vast German pincer movement against the British forces beyond the Mediterranean.

It appears unlikely that German military efficiency would risk a 2,000-mile round-about march through Russia to reach Iraq or Iraq and their vitally important oil resources with a better and shorter Turkish route available.

Except that the capture of Crete seals the Aegean against the British Sea and fends off British air attack on Rumanian oil wells, the only limited strategic value to the Nazis—unless a move against Turkey is in the cards. That seems more probable than a Nazi invasion of Russia for any purpose.

Air Force Enlistments

A Total Of 45,772 Men Joins The Royal Canadian Air Force

Ottawa.—Between October, 1939, and May 14, 1941, a total of 45,772 men, of whom 16,084 were air crew and 32,788 ground crew, enlisted in the Royal Canadian Air Force, Dr. H. A. Bruce (Con., Toronto-Parkdale) was informed in a return tabled in the House of Commons.

Enlistments from western Canada provinces follow: Manitoba, 5,828 including 1,648 air crew; Saskatchewan, 5,277 including 1,590 air crew; British Columbia, 4,314 including 1,492 air crew; Alberta, 4,196 including 1,326 air crew.

Metal Restrictions

Aluminum, Nickel And Zinc Are Becoming Scarce

Ottawa.—Canadians were urged in a statement by Munitions Minister Howe "to accustom themselves to restrictions" on the use of key metals for non-essential purposes.

"Such metals as aluminum, nickel and zinc are increasingly in demand as war industries come into production both in Canada and in the United States," said the statement. "And if the public is not able in future to obtain many articles to which it is accustomed, it must be realized that it is the government and not the manufacturers who are responsible for the curtailment of supplies."

Refugees In Cairo

Cairo.—Refugees are streaming by rail and highway into Cairo from the Axis-aided British base at Alexandria. Reports say that there are long lines of cars on the roads between the Egyptian cities. At Cairo, Premier Hussein Sirry Pasha has listed at least 331 persons killed and wounded in recent Axis raids.

Message From The King

Ottawa.—Prime Minister Mackenzie King has received a message of thanks from the King in answer to a message of felicitations sent by the prime minister on the celebration of the King's birthday in Canada June 9.
